

Scooter

Dimensions: ↓ 70 cm ↔ 70 cm

Seating height: 28 – 52 cm

Body size: 110 – 200 cm

Body weight: up to 90 kg

Ergonomics

- Separate, individual adjustment of seating height, seating depth and backrest height.
- High breathability thanks to premium mesh covering.
- Maximum comfort thanks to additionally available cushions for the seat or backrest.

Functions

- Optimum safety and stability thanks to six-armed star base.
- Intuitively adjustable with simple lever operation.
- Braked castors for hard and soft floors, optionally replaceable with sliders.

Design

- Diversity through 10 mix-and-match seat and backrest cushions.
- Modern, youthful design with innovative mesh covering.
- Fits great anywhere, thanks to two frame models.

Maximo

Dimensions: ↓ 68 cm ↔ 68 cm

Seating height: 28 – 54 cm

Body size: 110 – 200 cm

Body weight: up to 80 kg

Ergonomics

- Separate, individual adjustment of seating height, seating depth and backrest height.
- More dynamic seating and comfort thanks to integrated shock absorber.

Functions

- Greater safety thanks to the stable star base and TurnStop, which blocks chair rotation when desired.
- Braked castors for hard and soft floors, optionally replaceable with sliders.

Design

- Great for kids thanks to slim cushion shape and secret compartment under the seat.
- Classic design in 10 different coverings, washable and replaceable.
- Fits great anywhere, thanks to two frame models.
