

A black and white photograph of a curved desk with a white top. On the desk, five black ring binders are arranged in a row, following the curve of the desk. Each binder has a white label with the 'moll' logo and a circular hole. The desk is supported by a single leg. The background is a plain, light-colored wall.

**moll Rotafile –  
saves space, makes room!**

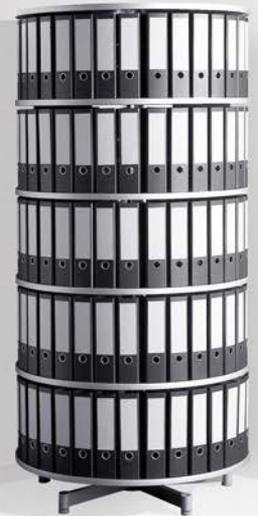

**Whether at home, at the office or in the  
Waiting room - space is expensive!**

## Rotafi le's clever storage concept is right on the money.

- maximum capacity on the smallest footprint

## Multifile

Multifile allows space-saving, visually attractive storage of a wide range of items - from folders to multimedia accessories to storage containers.

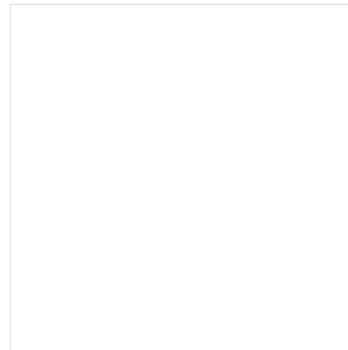

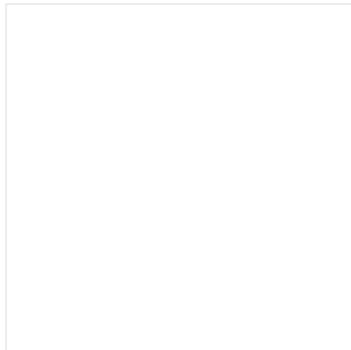

80 cm in diameter

individually rotatable levels

Levels variable in height

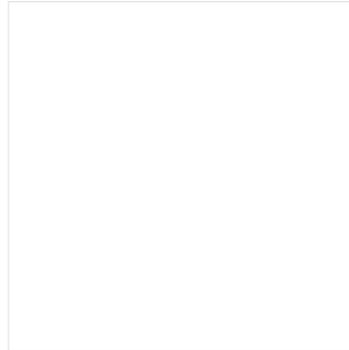

add-on levels for later expansion

load capacity per level: 75 kg

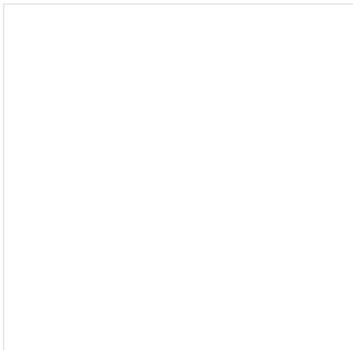

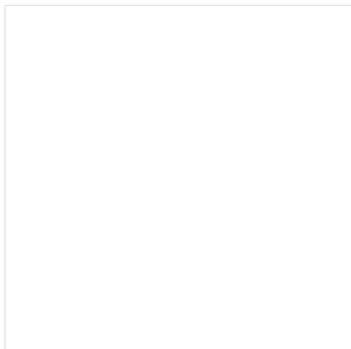

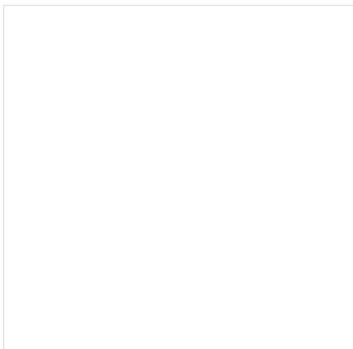

## Multifile

Castor set  
can also be installed  
later  
using height  
maximum 135 cm

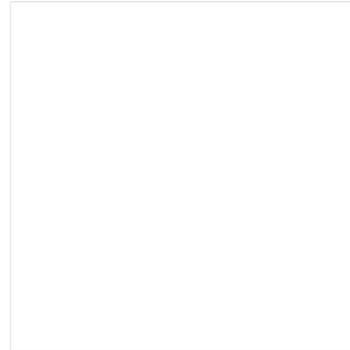

add-on levels for later  
expansion

Tischgerät zur  
Organisation  
auf dem  
Schreibtisch

## Multifile

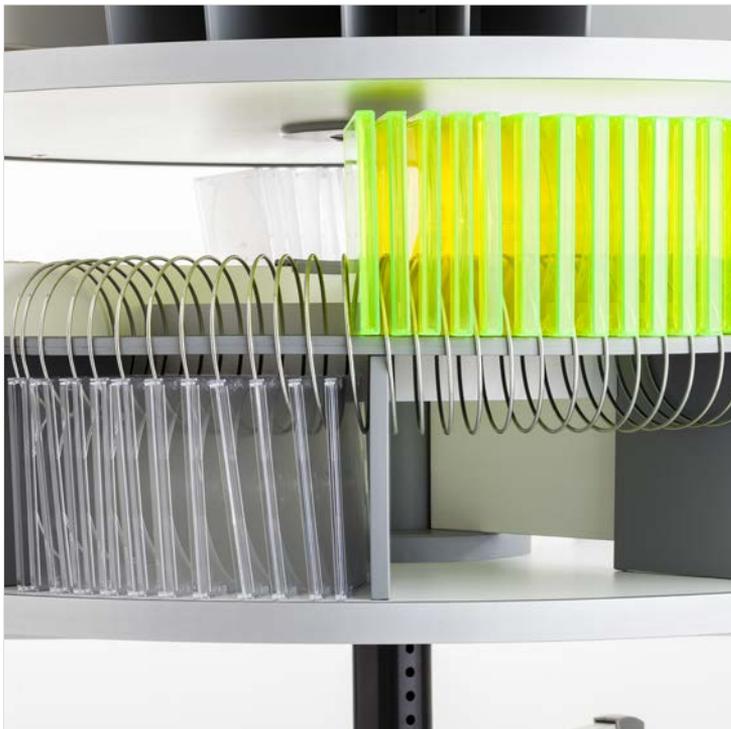

**Orgaset**  
for stabilizing  
and organizing  
media

**CD unit**  
made of hardened  
spring steel and  
aluminum

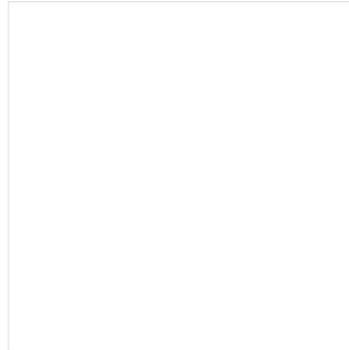

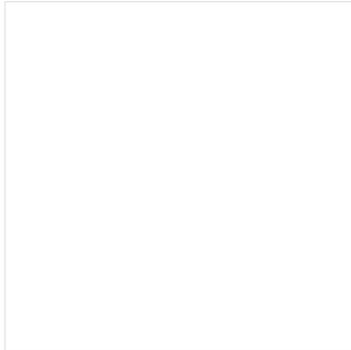

**Pull-out unit**  
for additional storage  
and work surface

**Rail**  
made of chrome  
for secure storage

## Compactfile

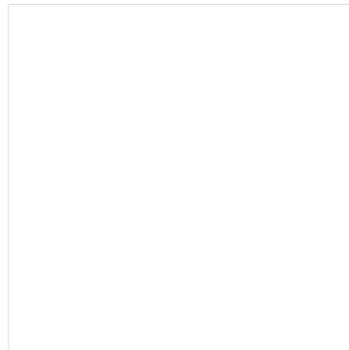

Ideal for conventional storage shelves especially suitable for compact storage and archiving of items that can be stored in a V shape.

80 cm in diameter

fully rotatable column for DIN-A4 folders and folios

add-on levels for later expansion

load capacity per level: 75 kg

## Compactfile

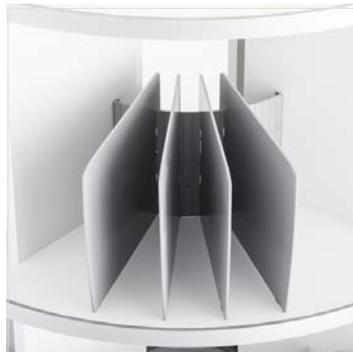

**CD unit**  
made of hardened  
spring steel and  
aluminum

**castor set**  
can also be installed  
later  
using height  
maximum 135 cm

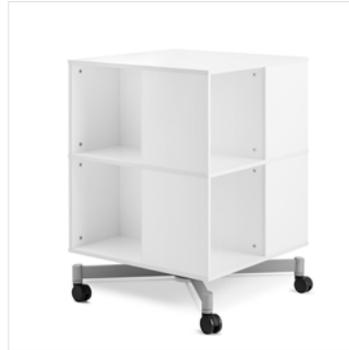

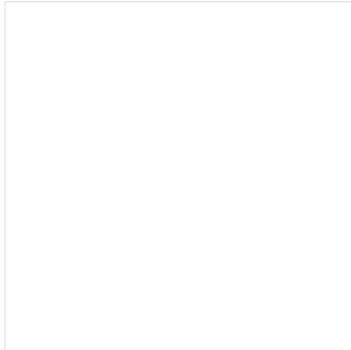

**Orgaset**  
for stabilizing  
and organizing  
media

**add-on-levels**  
for later expansion –  
2 or 3 levels

## Squarefile

Storage unit in slim design with versatile application possibilities, from presentation furniture for exhibition areas all the way to room-height bookshelves.

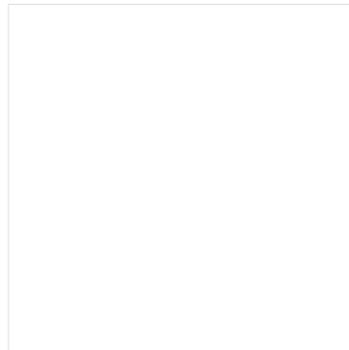

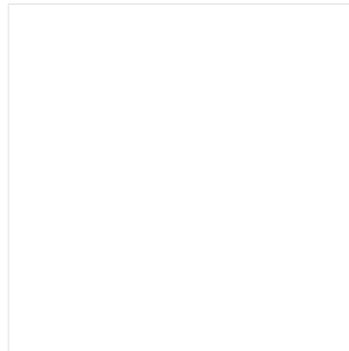

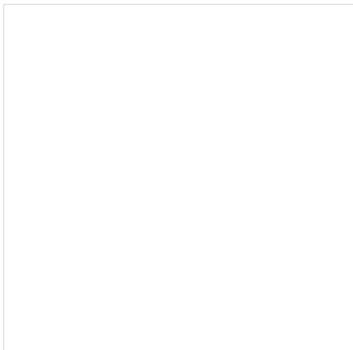

Dimensions:  
69 x 69 cm  
diagonal: 97 cm

fully rotatable column

add-on levels for later expansion

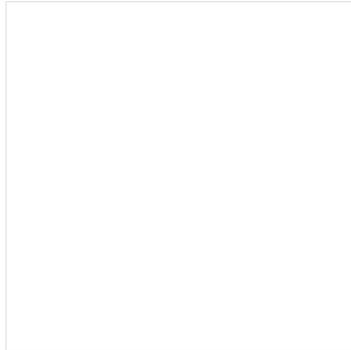

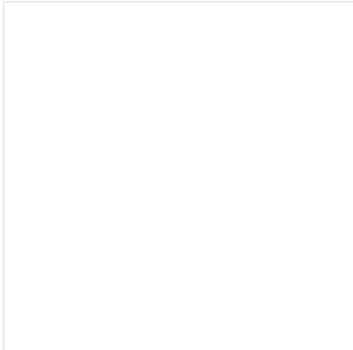

load capacity per level: 60 kgkg

for DIN-A4 folders and folios

## Squarefile

**magnet board**  
powder coated sheet  
steel in 6 colors

**compartment shelf**  
for individual division  
of storage space

**Compartment insert**  
for practical division  
of storage space

**add-on-levels**  
for later expansion –  
2 or 3 levels

**castor set**  
can also be installed  
later  
using height  
maximum 135 cm

As a creator of the rotating column moll has constantly developed this filing and storage classic.

Flexibility, space economy and reliability characterize Rotafile.

## **Rotafile worldwide**

Rotafile products are distributed globally in more than 80 countries.

The export share is more than 50%.

## Our responsibility

High product quality ensures durable products.

Material usage is limited to what is necessary.

Dismountable products for efficient recycling.

Use of tested and certified materials.

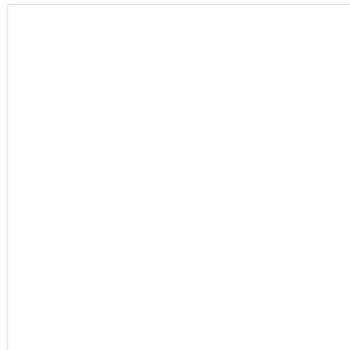

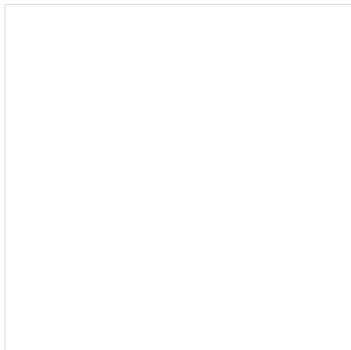

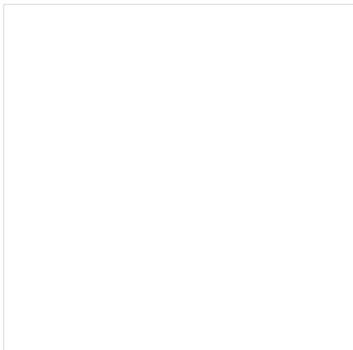

## Our responsibility

Waste separation and energy reduction in production and administration

Whenever possible we are working with local suppliers.

Products that last a lifetime are the best reasoning in a discussion on sustainability.

**MADE  
IN  
GERMANY**

Rotaflex products are designed and produced in Germany.

Replies to the highest quality and safety standards.

Rotaflex products are constructed and manufactured with great care.

Rotaflex products stand for safety and reliability.
